

The Early Years Foundation Stage is the period of education from birth to 5 years. In our Foundation Stage we have one nursery class and two reception classes.

Intent

INTENT

In EYFS at Bushbury Hill Primary School, the curriculum is designed to recognise children's prior learning from previous settings and their experiences at home, provide first hand learning experiences, whilst allowing the children to build upon our school values of respect, honesty, positivity, determination and resilience. Every child is recognised as a unique individual and we celebrate and welcome differences within our school community. The ability to learn is underpinned by the teaching of basic skills, knowledge, concepts and values. We provide enhancement opportunities to engage learning and believe that our first experiences of school should be happy and positive, enabling us to develop a lifelong love of learning.

Throughout their time in EYFS, the children develop a sense of belonging to our school community, ready to transition to year 1 the following academic year. They have the confidence and skills to make decisions and self-evaluate, make connections and become lifelong learners.

We intend:

To work in partnership with parents and carers to encourage independent, happy learners who thrive in school and reach their full potential from their various starting points.

To understand and follow children's interests and provide opportunities throughout our EYFS curriculum to support learning, consolidate and deepen knowledge and ensure children meet their next steps.

To create an indoor and outdoor environment which supports learning.

To prepare children to reach the Early Learning Goals at the end of the Foundation Stage and ensure children make at least good progress from their starting points.

To support transition into KS1.

Implementation

Throughout EYFS at Bushbury Hill Primary School, we follow the Early Years Statutory Framework for the Early Years Foundation Stage, updated March 2017, by the DfE. This framework specifies the requirement for learning and development in the Early Years and provides prime and specific areas of learning we must cover in our curriculum. We have a curriculum that is child-centred and that is based upon wow experiences and topics which engage the children. We encourage active learning to ensure the children are motivated and interested. We take time to get to know children's interests and their likes to support learning. All areas of the EYFS curriculum are followed and planned for to ensure there is a broad, balanced and progressive learning environment and curriculum. The children will learn new skills, acquire new knowledge and demonstrate understanding through the seven areas of the EYFS curriculum.

- Personal, Social and Emotional Development,

- Physical Development,
- Communication and Language,
- Literacy,
- Mathematics,
- Understanding the World,
- Expressive Arts and Design

These 7 areas are used to plan children's learning and activities. Planning for this curriculum is designed to be flexible so that a child's unique interests are supported. Daily guided activities in reception and group time in nursery are also planned to cover different areas of the EYFS curriculum and allow children to develop their next steps in learning.

A vital aspect in the development of essential knowledge and skills is the use of continuous provision. This means that children are using and developing taught skills throughout the year on a daily basis. Continuous provision practise and principles begin in EYFS and support children to develop key life skills such as independence, innovation, creativity, enquiry, analysis and problem solving. During the school day, children will have an opportunity to work independently, work collaboratively with their friends and with members of staff. Through observation and discussion, areas of need and next steps are identified for all children to ensure good progress is made.

There are also a range of stimulating and engaging activities which the children can access independently and a variety of opportunities for child-initiated play. In planning and guiding children's activities we reflect on the different ways that children learn and reflect these in our practise. Staff in the EYFS make regular observations of the children's learning to ensure their next steps are met. These are collected in each child's online or paper learning journey. We regularly assess where the children are, using 'Development Matters' and then ensure our planning, adult interaction and learning environment; including continuous provision, support children to reach their next steps. We will include interventions for groups or individuals if and when necessary. Children in EYFS learn by playing and exploring, being active, and through creative and critical thinking which takes place both indoors and outside. Our outdoor areas are used all year round and in most weather conditions. We ensure activities support the Characteristics of Effective Learning to ensure learning takes place. These are:

Playing and Exploring – children investigate and experience things, and have a go;

Active Learning – children concentrate and keep on trying if they encounter difficulties, and enjoy achievements;

Creating and Thinking Critically – children have and develop their own ideas, make links between ideas and develop strategies for doing things.

We share a range of healthy snacks and learn about the importance of a healthy balanced lifestyle to maintain our own wellbeing. All of children perform in a Nativity, receive certificates in assembly, and participate in trips to the Severn Valley Railway, a farm, a Safari park and an outdoor wildlife centre. They are visited by community members such as the police and nurses. They plant bulbs and seeds, watch them grow and observe the life cycles of butterflies and chickens. To support our wider curriculum, we provide regular opportunities for parents and carers to come into school and work with their child, share their work and celebrate successes. We keep parents informed and we meet regularly with them to ensure children's transition into school and through the EYFS is happy and allows them to reach their potential with the support needed. This includes

transition days, nursery or home visits, parent workshops, ClassDojo, reports and parent consultations as well as more frequent informal communication to suit individual families. We also support the transition into Key Stage 1 and Nursery to Reception for both child and parents by following the school's transition policy.

Impact

We strive to ensure that our children's progress across the EYFS curriculum is good from their varied starting points. We also strive for children to reach the Early Learning Goals at the end of Reception; evidence in children's learning journeys support all areas of the EYFS curriculum. The impact of our curriculum is measured by termly assessments. We measure the percentage of pupils achieving age related expectations throughout the academic year, put supportive interventions in place if and when needed. Class teachers use observations to make formative assessments which inform future planning and ensure that all children build on their current knowledge and skills at a good pace. Summative assessment compares children attainment to age related expectations using month bands in Development Matters. This is tracked using Insight to ensure rates of progress are at least good for all children, including vulnerable groups such as those with SEND or disadvantaged children. Our assessment judgements have been moderated in school and externally with our collaborative schools. We also partake in local authority moderation which has validated our school judgements. The impact of our curriculum will also be measured by how effectively it helps our pupils develop into well rounded individuals who embody our values and carry with them the knowledge, skills and attitudes which will make them lifelong learners and valuable future citizens. We endeavour for pupils to be Key Stage 1 ready and have our school values embedded by the time they leave reception, preparing them for their future.
